

showergrateshop Inc.

Brushed satin finish linear drain adds functionality and a modern touch to your bathroom
DERA-Line can be installed by sloping the base on a single plane, as opposed to all directions to point drains
This enables the use of attractive large format tiles, and barrier free applications

- > 18 gauge stainless steel construction
- > Installs ovetop standard shower drain
- > Chloraloy/PVC shower pan liner waterproofing preferred
- > Height adjustable to fit substrate thickness
- > Included installation kit which accommodates 1.5-2 inch pipe
- > Available in 9 standard sizes
